

# THE BLAIRMORE ENTERPRISE

VOL. XVI, NO. 38.

THE BLAIRMORE ENTERPRISE THURSDAY, AUGUST 13, 1925.

## EXAMINATION RESULTS

Following is a summary of the results in the recent examination of pupils in the Blairmore public school:

Grade XI—Fourteen in class; 9 clear, 6 conditional, in one subject only.

Grade X—Ten in class; 5 passed.

Grade IX—27 in class; 23 passed.

Grade VIII—44 in class; 27 passed.

Mr. G. H. Dionne was up from Plover Creek on Monday.

## MANSLAUGHTER

Today, darling little pet of Miss Ethel Williams, met death in a sudden and unexpected manner on Tuesday morning, when she failed to stop a heavy gasoline-driven truck on Victoria Street east. Topsy was a pure white person, very kind dispositioned and well and favorably known. The coroner decided that an inquest was not necessary and the Spitz beauty was consigned to mother earth with prompt and solemn ceremony.

## KIDDIES' FLAG DAY AND COMMUNITY PICNIC

A day that will long be remembered by the kiddies of the district was the Flag Day and Community Picnic held under ideal weather conditions yesterday afternoon, on the west end of the athletic grounds, and sponsored by the local Order of Elks.

Long before the stated time the children started to gather at the schoolhouse, where each was presented with a flag. In the neighborhood of eight hundred kiddies took part in the festivities, and were soon lined up and formed an impressive procession, waving their flags as they marched to the grounds, where they each received tickets for two free ice cream cones, a bag of peanuts, a bar of chocolate and a bottle of pop.

On entering the grounds they all assembled around the flag-pole, and were given a very impressive address on "Patriotism" by Mr. J. E. Gillis. The flag was then raised and saluted and the kiddies turned loose to enjoy themselves.

For fully two hours the booth was swarmed with kiddies and upwards of a dozen Elks were kept busy passing out refreshments. During the day forty-five gallons of ice cream, a truck load of pop, more peanuts than the circus elephants could masticate in a week and hundreds of bars of chocolate were consumed by the kiddies, in fact all that was left was the booth, pop bottles and caps and the ice cream tubs.

Races for all ages took up the time till supper and kept the kiddies in good spirits. The boxing and pillow fighting on the pole both proved nuth-makes, while the ball game between the married and single Elks filled in the rest of the hilarity and resulted in a win for the bachelors, as they say.

Supper was then partaken of and upwards of fifty gallons of free tea and coffee was supplied. All over the grounds one could see small gatherings of grown-ups and children enjoying themselves, quite a number being in from Bellevue and Hillcrest.

## TOWN COUNCIL MEETING

The regular fortnightly meeting of the Blairmore Town Council was held on Monday night attended by Mayor McLeod, Councillors W. Patterson, J. E. Gillis, J. Montalbet, M. Sartoris, A. E. Ferguson and R. Hays.

The minutes of previous regular meeting were adopted as read and the following accounts were passed for payment, subject to approval by various committees: Union Bank of Canada \$1307.85, R. Crayford \$22.50, M. Schlosser \$82.00, J. Samardson \$42.00, E. J. Pozzi \$32.00, Aleck Selekun \$60.00, A. W. Robbins \$55.00, Wesley Byers \$51.00, Sam Ennis \$34.00, C. Walton \$32.00, B. Hinds \$68.00, M. Sartoris \$5.55, Joe Kuhl \$14.50, Alberta Government Telephones \$38.65, General Supplies, Limited, \$34.29, J. D. Adams Co. \$498.50, West Canadian Collieries \$296.75, M. I. McKinnon \$5.50, Petty Cash \$17.50, Heinitz & Slaw \$7.23, Blairmore Enterprise \$17.23, Wong Lee Ling \$50.00.

The J. D. Adams account covered balance due on street grader purchased last year for a consideration of about \$1200.00.

Councillor Hays objected to the W. Byers' account, claiming that same should have been paid by owner of team, who would be responsible for fees under the Workmen's Compensation Act. Councillor Patterson objected to the employment of non-licensed work horses while there were licensed livery or dray horses idle around town. Councillor Patterson also objected to tobacco being among a list of items in a relief account.

May Pay asked for a rebate on license paid for the year 1925, since the town had amended their license by-law making the restaurant fee \$25.00, instead of \$20.00, effective from July 1st. Long Soon made similar application and on motion by Gillis-Patterson the necessary return was ordered paid.

John A. McDonald made application for the position of fire chief, at a yearly allowance of \$175.00. Matter was laid over till a later date, the town in the meantime to advertise for tenders.

Frank Barringham, Coleman taxi driver, asked that he be granted the same non-resident taxi license fee as is granted by Coleman, namely \$10.00, instead of \$15.00, as assessed by Blairmore. Also that he be given special parking privileges. Council considered the matter, but felt that the town's by-laws had to be lived up to.

Resignation of Mr. G. F. Johnson as auditor was accepted. Mr. Johnson having taken up a position permanently with the Pacific Mines Company with residence at Vancouver. Secretary was instructed to get in touch with official auditor to effect transfer prior to Mr. Wright's departure on vacation.

Matter of appointing new auditor was laid over till a later date.

J. Stephenson, proprietor of the Cosmopolitan hotel, wrote the Council, asking that certain repairs be effected to the sidewalk at the corner of Sixth Avenue and Victoria Street. On motion the necessary repairs were ordered done.

A petition was submitted personally by Messrs. Elliott, Davis and Ennis, residents of Eighth Avenue north, asking that shale be supplied for a walk fronting their premises, also that some ditches in the lane near their premises be filled in with rock, etc., so as to make the lane passable and safe for traffic. On motion the petition was ordered granted.

Question was raised as to whether or not Mr. E. J. Pozzi had complied with by-law requiring permit to build, in connection with two cottages being erected by him on Fifth Avenue. Ad-

vised that no such permit had been sought, it was moved Patterson-Hays that "the erection of two houses on Lot 10 in Block 23 is not in accordance with the By-Laws of the Town of Blairmore and that E. J. Pozzi be notified accordingly. Carried.

Motion introduced by Councillors Hays and Ferguson in respect to the All-Canadian Shows of Conklin & Garrett was lost.

Eleven applications for the position of temporary secretary-treasurer were read and upon vote Mr. A. J. Kelly was given the appointment.

Considerable discussion ensued on various matters of interest to the town, and the meeting adjourned at 11:30.

Cranbrook went dry in a natural way last week. The brewery went up in smoke!

The following pupils of Blairmore school were successful in passing their Grade VIII examinations:

Margaret Boehlen, Valma Bouthiller, Emilie Bigg, Lillie Crowder, Bessie Crowder, Irene Chappell, Gwendolyn Dawson, Reginald Evans, Lena Fraser, Duncan Hamilton, Alice Hornquist, Ellen Ivey, James Ivey, Martha Jarrys, Katherine Kuble, Irene Kafoury, David Kemp, James Lloyd, Ronald McDonald, Nina Passmore, George Passmore, Acanath Palmer, Edna Smith, Kathleen Viola Smith, Mabel Thompson, Gladys Thibodeau, Henry Vandueren.

The big clearance sale at Kafoury's still continues with bigger bargains than ever before.

## SUCCESSFUL STUDENTS

IN GRADE EIGHT

The following pupils of Blairmore school were successful in passing their Grade VIII examinations:

Margaret Boehlen, Valma Bouthiller, Emilie Bigg, Lillie Crowder, Bessie Crowder, Irene Chappell, Gwendolyn Dawson, Reginald Evans, Lena Fraser, Duncan Hamilton, Alice Hornquist, Ellen Ivey, James Ivey, Martha Jarrys, Katherine Kuble, Irene Kafoury, David Kemp, James Lloyd, Ronald McDonald, Nina Passmore, George Passmore, Acanath Palmer, Edna Smith, Kathleen Viola Smith, Mabel Thompson, Gladys Thibodeau, Henry Vandueren.

The big clearance sale at Kafoury's still continues with bigger bargains than ever before.

## RETURNING TO THE EAST

### Our Business is For Sale

Our Annual Turnover is approximately Fifteen Thousand and can be increased by any hustler or two partners. We will teach the business to inexperienced buyer. Investigation invited. Best reason for selling. For full particulars, call at our shop.

## Governing Canada

Canada's first Premier was wont to say that the Dominion was a difficult country to govern. It is found that to be true in the years immediately following Confederation. But Canada consisted chiefly of Ontario, Quebec and the Maritime Provinces, and the West was an unknown factor of small population and undeveloped territory, how much more difficult must the problem be today when the opinions and needs of nearly three millions of people west of the Great Lakes require to be harmonized with those of the millions east of that geographical barrier.

Forty years ago the problem was to effect a compromise between the conflicting views of the farming population of Ontario and Quebec on the one hand and the industrial interests of these Provinces on the other hand; and also to reconcile the three race differences existing between French-speaking Roman Catholic Quebec and English-speaking Protestant Ontario. Coupled with these major difficulties was the task of uniting by a bond of common interest these two Provinces of upper Canada with the Maritime Provinces.

With the passage of time the old racial and religious animosities between Ontario and Quebec have largely disappeared, while the development of manufacturing in both Provinces, and the shifting of the main agricultural activity and production to the newer Western Provinces has served to create a greater unity of sentiment in regard to tariffs and national policies in the East, although marked differences still exist between the central Provinces and the Maritimes.

But the old conflict of interest between agricultural producers and manufacturers which raged in the East in years gone by still prevails between the East and West but intensified by reason of sectional considerations, a more or less solid East against a solid West, whereas formerly it was merely a difference of viewpoints within a compact community.

Some good people despair of any solution of this national problem being found, but there is no reason for such gloomy forebodings. The Anglo-Saxon race the world over has always demonstrated its ability to solve such problems, and what it has repeatedly accomplished in the past, it can succeed in doing in the future. It only requires patience, patriotism and statesmanship, and that these will not be found lacking in Canada is indicated by the growing realization, both East and West, that an understanding, based on mutual compromises, must be worked out.

In the government of Canada some earnest people also find cause for disquiet in the changes which, in the onward march of the world, are taking place in the relationships existing between Great Britain and the overseas Dominions of the Empire. It is the development of a national consciousness in the overseas Dominions, and their growing autonomy in regard to matters of domestic concern, danger to the Empire is seen by those, rather than those of some years ago they were frightened by the hope of annexation to the United States because of a proposal of mutual trade concessions between the Dominion and the Republic and adopted as their rallying cry "No truck nor trade with the Yankees." It is now universally recognized that the defeat of Redoubt was a great national blunder, but, despite its defeat, trade goes on increasing year after year and Canada's independence and British connection is in no wise impaired.

"The present Premier of Canada well stated the position the other day when he said that as Canada is true to herself and Canadians are true to Canada's highest interests, so will Canadian citizenship mean most for Empire citizenship, that the Empire is just what His Majesty the King has so often described it to be: "A community of free nations." The Premier added: "We have all that any nation could desire in the way of self-government, and more than most nations have by way of a much-to-be-envied political association with other nations of like ideals and along." That is to say, Canada enjoys all the rights of self-government—if there is anything lacking it can be had for the asking—and, in addition, enjoys all the advantages and strength accruing from its Empire connection. Most countries would sacrifice a great deal to obtain the same position.

### Triumph For Surgery

Man in England Successfully Treated For Broken Neck

John Harrington, a British assistant of Eastney, England, has been successfully treated at Portsmouth Hospital for a broken neck, and hopes shortly to return to his work.

Last October a large piece of machinery fell on his head. His head, neck and shoulders were placed in plaster of paris, and this has now been replaced by a celluloid jacket which encases the upper part of the man's body and fastens round the side of his head.

At a distance the appliance is hardly observable, and Harrington is free from pain except when there is a change in the weather. His "cure" is regarded as a triumph for surgery.

### A Natural Lighthouse

Nature has provided a lighthouse for the island of San Salvador. It is a volcano which for years has been of inestimable value in guiding mariners by day and night. The water in the vicinity is shallow and treacherous, and the smoke all day and the great glare by night are more effective as a guide to mariners than any lighthouse ever built by man.

Witty Boarder: "Your steak is like the weather this evening, maddish, rather raw."

Witty Landlady: "Indeed? By the way, your account is like the weather, too—rather unsettled."

## Higher Education in Canada

Registration 29,372 At Canadian Universities

The assets of Canadian universities in 1924 amounted to \$10,844,477. The income to \$10,541,574, and the expenditure to \$11,151,521. These figures are given in a preliminary report on higher education in Canada issued by the Dominion Bureau of Statistics.

The registration at the 22 universities in Canada for the academic year ending June 30, 1924, was 29,372, about the same as in 1923. Of this number, about one-third were females.

## For Aches, Pains, The Safe Home Remedy NERVINE

When sudden sickness comes, when the kiddie comes in with colic, these little chests and bottles, now from a vigorous rubbing with good old Nerve Line. It's Cramps, Colic, Diarrhoea, and all the other troubles that bring ease and comfort so quickly. For young and old, it overcomes the minor ills that constantly arise in the home, nothing compares with "Nerve Line"—35 cents at all dealers.

## Unveils Memorial To Women War Workers

Five Sisters Window Is Treasure House of Stained Glass

What is declared to be the most charming of all war memorials was unveiled at short notice ago in the famous York Minster, in England, by the Duchess of York, who again revealed to the world the matchless beauty of the Five Sisters window.

Hereafter the streams of light that pour through the window will have a new significance, for they will remind all men of the 1,400 women of the empire who gave their lives in the Great War.

The Five Sisters window is the finest in York Minster, which is England's treasure house of stained glass. Within the walls are over 100 windows containing stained glass of the 13th and 15th centuries.

This unmatched wealth was estimated by the Dean of York two years ago to be worth in modern values \$350,000.

During the war a bomb fell near the Minster, and most of the priceless glass was removed and stored. For ten years the five tall slender lights of the Five Sisters have been boarded up.

In 1922 a York lady, the wife of Colonel Little, had the idea of an inspiration of restoring the window as a memorial to the women who died in the war, and with the money collected the priceless glass was cleaned and restored place by place.

## Spoiling Impressive Music

Suggestion of Orchestra Leader Would Not Be Improvement

Ernie Golden, leader of the Hotel McAlpin Orchestra, addressed the West Side Religious Forum on "Positive Music in Religion" and advocated the use of jazz in churches.

He ground that it would "put more pep into the hymns." No doubt it would. And jizzing up Handel's "Largo" would put more pep into that, and jizzing up Bach's "B Minor Mass" would put more pep into that. But would it add to religious exaltation? Hardly. As an example of what it would do, take the "Hallelujah Chorus" from "The Messiah." This is a sublime and impressive piece of music and conducive to religious worship. But as rewritten, under the attractive title, "Yes We Have No Bananas," it was too unimpressive, although much more pep—New York World.

## Cost Less Than Battleship

World Power Conference Considering Use of Natural Steam

Sir Charles Parsons' idea of boring a hole ten or twelve miles deep and securing an inexhaustible source of power from the interior heat of the earth was recently considered at the world power conference in London. The expense of such an undertaking would be less than that of building a single battleship. Natural steam which is converted into mechanical power is being used in the volcanic regions of Italy from such borings.

## Rich and Poor Nations

Cases of nations in which the rich became richer and the poor poorer are not unknown to history. "Economists used to hold that a similar anomaly as among nations could be only temporary, and hence by the agency of free trade wealth tended to distribute itself over the whole civilized world. The process, we are finding, is remarkably slow. Since the war American wealth would seem to have been increasing in the same ratio as European poverty."—Oswego Herald.

## To Curb Lawlessness

See Motor Car and Pistol as Greatest Crime Adjuncts

"The greatest adjuncts to crime are the automobile and the pistol, and at the next session of the New York state legislature I will recommend that the penalties for all major crimes committed with the aid of either of these be doubled wherever possible," said Commissioner Enright, head of the New York police department, in the course of a discussion on the prevalence of crime, the means of preventing it, and of curbing the activities of the habitual criminal.

The commissioner did not know if his suggestion would be received favorably by the New York state legislature, but he felt sure it would provide a partial remedy for the problem of preventing crime.

## BEST MEDICINE SHE EVER USED

Dr. Williams' Pink Pills Highly Praised By a Nova Scotia Lady

Among the well known and esteemed residents of Hantsport, N.S., is Mrs. Annand Woodworth. Some four years ago Mrs. Woodworth had the misfortune to lose her husband, and as a result of caring for him during his illness, she became terribly run-down. Mrs. Woodworth says she felt as though her blood had turned to water. "The least exertion would leave her tired and breathless. She was often attacked by spells of weakness that left her almost speechless, and frequently fainted from severe headaches. Her medicines she took did not help her, and she almost despaired of gaining her health. In this condition she one day read in a newspaper of a case very similar to her own, in which blood had turned to water. This made her decide to give these pills a try. After using a few boxes she found the pills were helping her, and she continued to use them until her blood had turned to water. Her health and vitality were restored. Now Mrs. Woodworth looks after a small farm of fifteen acres, besides doing all her household work, and says she never felt better or more energetic in her life. She gives credit for her present good health to Dr. Williams' Pink Pills, which she says are the best medicine she ever used, and strongly recommends the pills to all run-down people.

You can get these pills from any medicine dealer, or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Railways in Early Years

Railways were in use long before the steam locomotive was invented. As early as 1602 short railways in and about Newcastle, England, were laid down by Mr. Deane. The rails were timbered laid exactly straight and parallel, and bulky carts on four wheels were used. Each cart was drawn by a horse, and this way was used for the carrying of coal to the river trout. To the immense benefit of the coal merchants.

## Pluck Versus Luck

I soon learned that the hardest kind of work was back of every success that nothing in the world of business just happened, but that everything was brought about, and only in one way—by a willingness of spirit and a determination to carry through.—Edward Bok.

## SUNDAY SCHOOL LESSON

AUGUST 18

TEMPERANCE LESSON

Golden Text: Do not deceive: God is not mocked; for whatsoever a man soweth, that shall he also reap. Gal. 6: 7.

Lesson: Galatians 6: 19-24.

Devotional Reading: Proverbs 23: 29-35.

## The Text Explained and Illumined

The Flesh Against the Spirit

The power of love, verses 13-15. Brothers, wrote Paul, you are free from the law, but Christian liberty does not mean that you can do as you please; do not use your freedom as a license for indulging your lower impulses, but live in accordance with the law of love. Flesh is used here for that element of man's nature which is opposed to goodness, and makes for evil. It signifies the entire potency of sin. Through living services for others you shut the whole divine law, which is, "Thou shalt love thy neighbor as thyself." Paul here quotes Lev. 19: 18. Then, remembering that the Galatians were prone to quarrel, he adds, But if ye bite and devour one another, ye shall not be saved; for ye shall be cut off as ye shall be cut off. Another cut toward one another like dogs or wild beasts—how far you destroy one another.

"No man resolved to make the most of himself can spare the time for personal contention. Still less can he afford to take all the consequences, including the violating of his temper and the loss of self-control." (Abraham Lincoln).

## London Speculates On Programme Of Prince

Wonder What Plans Are After South America Trip

What the future travel programmes of the Prince of Wales will be after his visit to South America is a popular topic for speculation. When he sides over to the American continent south of the equator he will have completed his rounds of all the continents of the earth, his trips having taken him to all the great empires and larger colonies of the British empire as well as to several countries outside the kingdom which he will eventually rule.

Carrying out the extensive programme planned for him after the world-war, the Prince has spent part of each year since that time away from London. With no more worlds to conquer he will in the opinion of those who interpret him in questing on his future settle down to seriously prepare himself for the business of being King.

The Prince of Wales has been characterized as the greatest salesman of the present generation. His empire and his wars, international relations. As such he has been a success in all that the term applies.

The homecoming of the Prince will create a feeling of a greater extent than his return from any previous trip. After his return he will have more time to spend among his own people and consequently there are likely to be more rumors and speculation concerning him than during his former stays in the British capital between trips. These will not influence him, however, as he has shown a strong will and independence of action regarding himself since childhood.

## For Scalds or Burns—Dr. Thomas' Electric Oil Is a Standard Remedy

For the prompt treatment of scalds and burns, Dr. Thomas' Electric Oil is a standard remedy. It soothes the pain, relieves quickly, restores the skin and aids in the recovery from the injury. It is also a standard remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from the inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

## Wireless Waves Travel Fast

Reach Point 8,000 Miles Distant in 23rd of Second

The editor of the Children's Newspaper, writing in bold, "On other days, I heard Big Ben, the bell in the Parliament Buildings, London, England, strike midnight."

But the twelve strokes of the big bell were heard in California before the editor heard them, for they were broadcast by 2.10 and picked up by thousands of people in the States.

This is the explanation. From the editor's home to Big Ben is 4,020 feet, and as sound travels in the air about 1,120 feet a second, the chime of Big Ben took 3 1/4 seconds to reach the editor's room. But, as wireless waves travel 136,000 miles a second, the chimes took only a 23rd of a second to reach California, 8,000 miles away. The American, therefore, heard the bells more than four seconds before the editor heard them through his window, almost within sight of Big Ben's tower.

## Never Knock at the door of your sweetheart's home—she would prefer your entering with a ring.

The United States produces half of the world's copper and uses 44 per cent of the production.

## Prison Populations

Little Variation Shown in Number Of Penitentiaries Inmates During Past Four Years

The penitentiary population of Canada has varied only a few hundred during the past four years; and the 1925 figure is lower than the two preceding years. In the penitentiaries controlled by the department of justice, there were, in 1921, 2,150 prisoners; in 1922 there were 2,040; in 1923 there were 2,480, and last year there was a drop to 2,225.

Of the total penitentiary population of Canada last year, 670 were in Kingston; 551 were at St. Vincent de Paul; 246 at Dorchester; 199 in Manitoba; 224 in British Columbia; and 293 in Saskatchewan.

## The Terror of Asthma comes like a thief in the night with its dreadful throttling, robbing its victim of breath. It seems beyond the power of human aid to relieve it until one tries it made of that remarkable preparation, Dr. J. J. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living, and, if the remedy be used persistently, the disease is put permanently to rest. Take no substitute.

## An Ocean Sulphur Spring

Surveyed By Experts Off Coast Of Florida

Lifting out of the ocean from a depth of 135 feet, a big spring of fresh sulphur water, two miles off the coast of Florida, near St. Augustine, recently was surveyed by experts of the United States Coast and Geodetic Survey.

The government climatologists anchored directly over the troubled waters of the sea spring. The water sampled was about the same temperature as the surrounding Atlantic, but the treatment also had a core of gas, the like upwelling was plainly apparent at the surface.

## Miller's Worm Powders are a prompt cure for all cases of worms in children. They are powerful in their action, and while relieving nothing to be feared as a worm expeller, have an invigorating effect upon the youthful system, ridding every bilious disposition, and clearing the bowels and other ailments that follow disorders caused by worms in the stomach and bowels.

## Would Segregate Prisoners

Suggests Segregating Prisoners According to Their Temperament

Creation of a number of small prisons to replace the existing comparatively few jails and penitentiaries, where criminals could be segregated according to temperament, is a proposal which Judge Marcus A. Kavanagh, of Cook county, Ill., will offer to the international prison conference, to be held this month in London, England.

## Steel Used Centuries Ago

Steel, a compound of iron and carbon, has been made from the earliest times. It was formerly used by the Egyptians, Assyrians and Greeks. A manufacturer for cast steel is said to have been established by Benjamin Huntsman at Handsworth, England, in 1725. The manufacture of sheet steel began at Sheffield, England, about the year 1800.

## Only the uninformed endure the agony of corns. The knowing ones apply Followers' Corn Remover and get relief.

## Yes, Dobbin's Passing

In Chicago during the last five months 16,993 horse-drawn vehicles were given licenses. During the same period more than 250,000 auto licenses were issued.

## MINERS AGREE TO RESUME WORK IN NOVA SCOTIA

Halifax.—The British Empire Steel Corporation advised Premier Rhodes that they had accepted the Nova Scotia Government's proposals for a settlement of the provincial coal strike.

In a telegram from Montreal to the provincial premier, Roy Wolvin, president of the corporation, announced his company's decision to accept the settlement proposals "solely to avoid further disaster to the province and on your representations that it is for the general benefit of the people of Nova Scotia."

The miners of Nova Scotia employed by the British Empire Steel Corporation agreed, by a majority of 1,133, in a plebiscite today, to return to work under the proposals of the Provincial Government. There were 5,693 votes polled, many of the miners abstaining from balloting.

Mr. Wolvin's telegram says: "The Dominion Coal Company, Nova Scotia Steel and Coal Company, Cumberland Railway and Coal Company and Acadia Coal Company, after protracted deliberations, hereby accept the conditions of the memorandum which you delivered to me in Halifax, July 31."

"This acceptance of your memorandum is at the request of the government, and solely to avoid further disaster to the province and on your representation that it is for the general benefit of the people of Nova Scotia."

## Press Delegates Have Reached Honolulu

Canadian Will Leave on Return Trip October 9

Honolulu.—Delegates from Great Britain, Canada and other British dominions on their way to the third imperial press conference in Australia, arrived here on the liner Auranai and were warmly welcomed by the representatives of the Government of Hawaii and the people of Honolulu.

Today, the British press party is being entertained by the chamber of commerce in a lightening tour, culminating in an official luncheon.

During the voyage from Vancouver, the Canadian delegates organized their section with J. H. Woods, of Calgary, president of the Canadian Press, as chairman. The conference will open in Melbourne, September 29. The Canadians in the party probably will leave Australia for the return trip on the liner Mskura on October 8.

## Important Gold Finds

Paying Questions Being Taken from Cassiar District, B.C.

Wrangell, Alaska.—After repeated reports of fabulous gold in being taken in paying questions in the Telegraph Creek district of the Cassiar country, British Columbia, where a strike was made last autumn.

First shipments of gold from the district, which lies 300 miles east of here, were in Wrangell today, brought by a boat on the Stikine River.

Some claims on Gold Pan Creek are paying from \$15 to \$25 a day per man. News that gold was really coming out of the country, following apparently authoritative reports that a stampede into the Cassiar in the spring had been a fiasco, has set persons who had abandoned claims to restoring them.

The gold brought here was obtained when miners began washing or cleaning up earth they dug out and piled up.

## Chicago's Crime Increases

Chicago.—Persons are being murdered in Chicago at a rate of more than one each day. A total of 227 have been murdered to date this year. "If that pace is the last six days continues for the next 154 days, the Chicago murders at the end of 1925 will number 331."

## Support Legion Idea

North Bay, Ont.—An inter-club meeting of ex-servicemen, attending the "Soldiers' Day" of the North Bay Old Home Week activities, unanimously gave assurance of their whole-hearted support in making the proposed British Legion of Canada an accomplished fact.

## Will Keep Government House

Edmonton.—By a vote of 32 to 7, the Alberta Legislature, on motion of Dr. J. R. Stewart, Conservative, today decided, seconded by Premier Greenfield, to reconstitute the Davidson-McGowan motion of March last, calling upon the government to sell or otherwise dispose of Government House.

W. N. V. 1602

## May Be President Of League Assembly

Name of Senator Dandurand, Canadian Delegate, Is Mentioned

Ottawa.—Senator Ravi Dandurand, chief Canadian delegate, is being prominently mentioned for the presidency of the assembly of the League of Nations, which will begin its sessions here, September 7.

Dandurand has requested the secretary of the league to place on the agenda for the September sessions a project for the creation of a commission of conciliation at the permanent court of international justice at The Hague.

The first reaction in League of Nations circles to the Danish proposal is that it represents an attempt by neutral states to remove from the council of the League of Nations the exercise of conciliation, which, however, has formed a notable feature of the council's activities, and places it under the jurisdiction of the world court, which would appoint conciliators in any dispute.

## RAILWAYS OFFER NORTH COUNTRY PRAIRIE RATES

Edmonton.—Both the Canadian National and the Canadian Pacific Railways have agreed to amend their offers in respect to operation of the Peace River line, by undertaking to give the benefit of a prairie rate basis for a temporary period, pending the conclusion of satisfactory terms with the Royal Bank.

Premier Greenfield made a statement to this effect in the legislature. He said he had received advice from both railways since his statement in the house on Aug. 4, but that this constituted the only new development in the situation, nothing further having been heard from the bank.

The effect of the new undertaking by either railway will be that for at least one season, and perhaps for many, a temporary arrangement will be in force by which the north country will be given a one-half rate, thus meeting one of the strongest objections it has put up against the present service. Presently, no new rates will be necessary if the government decides to let the existing agreement with the C.P.R. continue, thus amending, with the complications with the Royal Bank are straightened out.

## St. Helena Welcomes Prince

Visit Paid to Place Where Napoleon Was Interned

St. Helena.—A guard of honor of British ex-servicemen, Boy Scouts and Girl Guides, and enthusiastic crowds welcomed the Prince of Wales here when he landed from the ship for a short stay on his way from Cape Town to South Africa.

The Prince went to Government House, where he received prominent members of the community. Later he visited Longwood, where Napoleon was interned, and was shown around the estate.

In the afternoon Wales played golf, and in the evening was the guest of honor at an official dinner, afterwards attending a reception and dance.

## Honor Memory Of Canadian Author

Admirer of Louis Hemon, Place Tablet in House at Brant, France

Paris.—The memory of Louis Hemon, famous Canadian author, has been honored, thanks to his Canadian admirers, when a bronze tablet was placed in his natal house at Brant. The town of Quimper already has named one of its principal streets after the author, who has been said to be more celebrated throughout the world than in his own country.

The tablet bears this inscription: "In this house was born Louis Hemon, author of *Maria Chapdelaine*. This tablet was placed by his admirers in Canada."

Can't Unveil Memorial

Edmonton, Alta.—In a wireless dispatch from the steamship Distributor to the Edmonton Journal, Major Hodgson, private secretary, announces that Lord Bessie's request will be unable to unveil the memorial at Strathmore, Alta., this summer, as his list of engagements in the west for this year is quite full.

Woman Executed in Ireland

Dublin.—A rare event in Ireland, the execution of a woman—took place in Mount Joy prison, when Anna Walsh and Michael Talbot were put to death for the murder of the husband of Mrs. Walsh at Enniskillen. Talbot was a relative of the victim.

## ALLIED DEBTS DISCUSSED BY BRITISH HOUSE

London.—The question of the allied debts to Great Britain was discussed briefly in the House of Commons when Walter Edwards Guinness, financial secretary of the league, in replying to a question, said he presumed the debt negotiations with France, which had been interrupted by the return of the French experts to Paris, would be resumed in due course.

When a member asked if the negotiations had ended, as reported, in "an acrimonious breaking off," Mr. Guinness replied emphatically: "Nothing of the kind."

Mr. Guinness continued that a preliminary exchange of views had taken place with the Italian Government regarding Italy's debt to Great Britain. He said he understood Italy was framing proposals on this subject. He concluded that while not all the governments to which the recent British note was addressed had replied, he had no reason to suppose any of them would raise any difficulty with regard to the principles enunciated in that note as a fundamental basis for any debt settlement.

## Will Assist in Fruit Probe

R. F. McWilliams, K.C., of Winnipeg To Act With Government Attorney

Winnipeg.—An announcement was made that R. F. McWilliams, K.C., of Winnipeg, had been appointed as chief assistant to J. C. McRae, K.C., of Toronto, in conducting the investigation into the affairs of the Nash Fruit interests throughout Western Canada.

Action was taken against the company under the Dominion Companies and Investigation Act, and the books of the various company branches seized by the Royal Canadian Mounted Police. The books are now being audited under supervision of government agents.

Minister Wins Bard's Crown

Fethell, Wales.—The bard's crown of the Welsh eisteddfod, national festival for the encouragement of music and literature, has been won for the third time by Rev. William S. Evans, of Bridgend, Wales, who was voted in 1912 and again in 1917. Ten other persons attended the festival, delegations coming from the British colonies and dominions and from the United States. There were more than 4,000 entrants in the competitions in music, drama and poetry.

Form Fire Association

Calgary, Alta.—The inter-provincial association of fire fighters was officially born in Calgary when the conference of delegates from Saskatchewan and Alberta cities formally adopted a constitution.

## EARL HAIG AS ENGINE DRIVER

When Field Marshal Earl Haig crossed the Canadian Rockies, national special Canadian National Railways train, he expressed a wish to view the scenery from the cab of the engine rather than the observation car. The train was attached to his train. He therefore took the throttle of the loco-

## Compromise Motion On Natural Resources

Alberta Urges Government to Close Negotiations For Transfer

Edmonton.—At a recent session of the legislature, a compromise motion on the natural resources question was unanimously agreed upon, and will be sent to the Federal Parliament at Ottawa. The motion is as follows:

"That this legislature should strongly urge the Government of Canada to use every effort to facilitate the closing of negotiations for the transfer of the natural resources to the province of Alberta, based on the general principle embodied in the draft agreement submitted; and as to the details thereof, upon terms and conditions that can be accepted as fair and equitable."

## British Women Gain Victory

Admitted to Royal College of Surgeons On Equality With Men

London.—British women have gained another victory in their fight for equal rights with men when the Royal College of Surgeons decided to admit women on the same terms and under the same conditions as men. Heretofore, women have been admitted to the college as fellows and members, but without the right to vote as members of the college, for the council, which is the executive body of the college.

In the future, women also will be eligible for seats on the council, which right heretofore has been denied them. There are at present 13 women fellows and members who are affected by the decision.

## New Air Record Set

Message From Illinois Answered in Fifteen Minutes From Arctic

Arlington, Heights, Ills.—For the first time in history, the successful direct transmission and reception of messages to and from the Arctic Polar area was recorded when the MacMillan Arctic expedition answered a query of newspapermen from a local radio station.

The expedition, located at Etah, Greenland, approximately 3,700 miles north of Chicago, clearly heard the message, and within 15 minutes the answer came back, scarcely hindered by static and adverse weather conditions.

Failed in Channel Swim

Dover—Miss Stan, the French girl, failed in her effort to swim the English Channel. She was within a mile and a quarter of Dover when she gave up.

For Prairie Harvest

Victoria, B.C.—More than 500 men will leave Victoria for the fall harvest on the prairies in the next few weeks, according to the department of labor here.

## Difference Over Security Pact

Matter Not Ready For Discussion Between Foreign Ministers

London.—Aristide Briand has created an awkward situation for the British Government by his announcement that he is coming to London to talk with Austen Chamberlain on the security pact without having first consulted Mr. Chamberlain about the date.

A serious difference of opinion has arisen between the French and the British over the drafting of a note replying to the latest German communication on security, and there is still much to be thrashed out before the matter is ready for discussion between the foreign ministers. The situation is not helped by the disagreement on a debt settlement. The French offer is so small as to be contemptible, and the comments of the French press on the British refusal to accept the French offer to test the waters of the French to meet their obligations.

## Test Flights Successful

MacMillan Expedition Intends to Establish Base on Ellesmere Island

Washington.—With all three of its airplanes assembled, test flights were conducted at Etah, Greenland, by the MacMillan Arctic expedition, one being to a height of 5,000 feet and over glaciers. Lieut-Commander Byrd, commanding the navy section of the expedition, said it was the first time the navy department, that, despite the encountering of bitterly cold temperatures, the motors behaved perfectly.

It is understood to be the intention of the expedition to next establish a base on Ellesmere Island, across from Greenland, about half way to Cape Thomas Hubbard, on Axel Heiberg Island, where the advance flying base will be located, overhauling the polar sea.

## GOLD STANDARD WORKING WELL SAYS CHURCHILL

London.—Britain's return to the gold standard, which, during recent weeks, has drawn forth a swelling, though discordant, chorus of adverse criticism from various sources, was staunchly defended in the house by Winston Spencer Churchill, chancellor of the exchequer.

Unquestionably, Mr. Churchill declared, the gold standard affected everything to a certain degree, and anyone could argue the fact that everything disagreeable which had happened since the gold standard was restored was due to its restoration. "But disagreeable things always were happening," he remarked. He then asked that the government's action be judged not by fluctuations occurring over short periods but by its value in the long run.

Mr. Churchill had not taken the action also did," the chancellor continued, "the British employer would have taken it without us and come on to a gold standard, not of the pound sterling but of the dollar."

He then stated that he was not aware of the growing tide of criticism and propaganda against the gold standard, but he pointed out that the critics disagreed among themselves and that no political party had challenged the government to action. The government was "entirely unrepentant."

## Many War Claims Filed

Saskatchewan Residents Ask Indemnity From Germany For Losses

Regina.—Twenty-two war claims amounting to over \$100,000 have been filed by Saskatchewan residents against Germany as a result of her activities during the war. "The majority of the claims are for loss of personal effects and in some cases for loss of relatives aboard ships which were torpedoed by the Germans, according to James Friel, K.C., Ottawa, war claims commissioner."

Angus Sheldon Williams, of this city, had the most interesting claim to present to the commission. His claim is for \$4,000 for drawings and paintings lost as a result of enemy action. Mrs. Gertrude Alice E. Dowling, now of Winnipeg, has a claim for \$30,000 for the loss of her husband on the ill-fated Lusitania. Mrs. Martha Ellen Matthews, of 19 Utopia Block, Moose Jaw, also claims \$10,000 for the loss of her husband on the Lusitania.

Thomas Michael, of Morristown, Canada in Turkey, but naturalized in Canada in 1905, has a claim for \$45,371 for the loss of his son, personal injuries and injuries to his wife and family in addition to personal property loss.

James Michael, of Morristown, Canada in Turkey, but naturalized in Canada in 1905, has a claim for \$45,371 for the loss of his son, personal injuries and injuries to his wife and family in addition to personal property loss.

## MAKE MARITIMES ONE PROVINCE IS SUGGESTION

Montreal.—The French language newspaper in Canada says editorially: "More and more interest is being taken in the suggestion that one province should be made of the three Maritime Provinces, an answer admirable to the needs of this part of the Dominion as much from the federal as from the provincial point of view."

"The Maritime Provinces together represent only a population of one million souls; their territory is very small in comparison with the other Canadian provinces, yet there are three provincial governments to direct their affairs. That represents annually a large sum of money swallowed up by the civil service of each province and by the parliamentary machine of each one."

## United Church Will Deal With Pastors

May Make Changes and Transfers Earlier Than Expected

Toronto.—Changes in pastures of the United Church of Canada may be proceeded with soon. It was expected changes would be delayed until the next meeting of the general council. This alteration has been effected by the executive of the council, which recently concluded an important meeting.

Transfer committees of the various conferences may function as early as the end of October when they meet. Settlement committees are also enabled to proceed at once with the stationing of pastors.

The executive decided that the commission to take up the permanent organization of the church, in its four sections covering publications, education, funds and church department, shall assemble in Toronto in December. Officers for the moderator and secretary of the council will be elected at once. There was much discussion of the great spiritual and financial drive to be undertaken from October 4 to 15.

## Harvesters From East Will Be Available

Estimated West Will Need Approximately 10,000 Men

Ottawa.—Enquiry at the department of immigration and colonization elicited the information that approximately 60,000 harvest hands would be required for this year's western crop. Of this number it is estimated that the western provinces will supply about 15,000, and that a complement ranging from 50,000 to 35,000 may be secured from Eastern Canada, owing to the early harvesting in the east. No definite indication, however, had been given as yet by the railways in regard to the number available from the east.

## Cancelled Sailings To China

Missionaries Will Go in October If It Is Considered Safe

Toronto.—Accepting the judgment of the West China Mission, the Methodist mission board of the United Church of Canada cancelled the sailings arranged for 23 persons scheduled to leave Vancouver for Shanghai and Chongking, September 8.

Officials were instructed to arrange bookings for the middle of October, as that was the earliest date considered safe by leaders now in the field.

Eight missionaries, five missionaries' wives and 15 children were included in the party affected.

## U. S. Aviators Join French

Have Enlisted "On Side Of Sultan Of Morocco"

Paris.—As plans are being developed by the French command in Morocco for a strategic offensive movement in the near future with a view to bringing the rebellious Rifians to terms, United States aviators are on their way to Morocco to service with the French aerial force.

The overseas aviators who volunteered for service "on the side of the Sultan of Morocco" left France for the battle zone, six of them going by aeroplane and five by train.

## To Reduce Staffs

Quebec.—Immigration officials here are expecting a general reduction in immigration staffs throughout Canada, but declare that the slash will not be made until the federal estimates. A reduction by as much as 25 per cent of the personnel is anticipated.

HOME BANK LOSERS MAY GET ANOTHER 5 OR 10 PER CENT

TORONTO, Aug. 7.—That there was a possibility of a further payment to depositors in the defunct Home Bank from the estate was estimated by G. T. Clarkson, joint liquidator of the bank, after a conference with I. E. Weldon, here today. He estimated the possible payment at 5 to 10 per cent, entirely separate from the government relief. This extra payment depends on a great deal of litigation, such as the double liability hearings which are to begin at Osgoode Hall on September 14.

"I hope there will be these further dividends to the creditors," the liquidator said, "but they will not come for some time."

Lists of the depositors in the Home Bank of \$500 or less have been completed by the liquidators, but payment of the government reimbursement is not likely before the end of next month.

When the lists have been checked over the government will be informed of the amount of money required for the more than 40,000 small depositors. This money will probably be forwarded without delay.

Twenty commissioners are to be appointed throughout the Dominion to supervise the payment of the 35 per cent reimbursement.

It is stated that the depositors of more than \$500 can hardly be considered before the small depositors have been disposed of.

### ANOTHER ARGUMENT IN FAVOR OF BUYING AT HOME

A local lad recently sent to Eaton's for a bicycle. The purchase price delivered was \$45.00. After using the machine for a few weeks, one of the wheels split. The lad was advised to send the wheel back to Eaton's to be replaced, but the lad remarked: "Too much trouble," and would throw it to one side rather than demand that Eaton's make good.

The same wheel, or perhaps better, could be purchased locally for less money, and the local dealer would feel duty bound to make good if a flaw was discovered in the makeup of the wheel. And, what is more, ninety-nine per cent of those who deal with the local merchant would feel like compelling him to make good.

### ELKS' JUSTICE

On Elks' Day, one of the Kimberley citizens, Mr. J. C. Adams, of Tiffany Hall, took the leading role in a little bit of merry making on the part of some boys that caused a good laugh. It appears that Mr. Adams, thinking to do honor to the Elks and the cause which they were advancing on that day, adorned himself in an Elk's hat, which he purchased from Woodcock & Rutherford's haberdashery. Not being an Elk, one of its members secured a paper of suspicious blue shade and served it on the wearer of the Elk hat, and the victim soon found himself before a judge, who found him guilty of wearing certain apparel illegally, and ordered him to repair to Geo. Griffin's emporium where he was obliged to pay for the liquid refreshments for the crowd. This was not all, for the sins of Adam fell on one Ross Rutherford, who was also arrested and brought before the same court of most incompetent jurisdiction, and on being found guilty on a charge of selling Elks' regalia to other than an Elk, had to pay a similar penalty. Kimberley Press.

## J. E. UPTON -- Your Home Tailor

The owner of a racing car was driving along a country road one day when he passed an old farmer, an being of a kindly disposition, he of fered him a lift. His passenger was tremendously impressed by the speed and luxury of the car, and to humor the old fellow, the driver pushed the accelerator until they were going about sixty miles an hour. Suddenly, however, they came upon a greasy patch of road; the car skidded crazily, and then crashed into a tree. By good luck neither of the occupants were injured.

The farmer pulled himself calmly out of the ruins, filled his pipe, and then remarked thoughtfully:

"That sartilly was fine, sir, but there's one thing that baffles me: how do you stop her when there's no trees about?"

Ratepayers of Blairmore School District 628 should weigh properly the source of the present trouble with the teaching staff and remember that two members of the Board have between them eight or nine children attending school at a cost to the ratepayers of from six to seven hundred dollars per annum, towards which the parents are paying directly the enormous sum of eight dollars. The argument is raised by these same individuals that indirectly through rents, living commodities, etc., they are paying their full portion towards the upkeep of the school, but just as surely is the individual who is living at a boarding house or bacheling paying his part.

The most amusing part of the Blairmore Teachers-Board controversy is that the majority of the element on the school board seeking lower salaries for teachers, purported to be in the interest of ratepayers, are not owners of one iota of taxable property. Sympathy with ratepayers from a source of that description is not genuine.

A new brown stamp is to replace the blue ten-cent postal stamp.

### MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon of Friday, the 26th September, 1925, for the conveyance of His Majesty's Mails, on a proposed Contract for a period not exceeding four years fourteen (14) months, on the route Blairmore Post Office and Railway Station (C.P.) from January 1st next.

## MY IDEAL BOARD MEMBER

(By a Former Teacher)

If your opinion of an ideal school board member differs from mine here-with exposed, I ask you kindly not to take me too seriously. Just remember that a person's opinions and peculiarities are, generally speaking, his own interpretations of his personal experience. Now that I've said a few big words, I shall proceed to tell you a few things.

Once I taught at a place where the leading member of the school board was a bachelor. He had a younger brother, also a bachelor, who was, algebraically speaking, four years more than twice my age, but since they had some wealth, both thought they were much sought for by the ladies. By the way, I think that is rather characteristic of most bachelors anyway. A rejection slip on my part offended the couple, and the elder brother, using another excuse, said he would not sign my contract any more. I was going away to college and did not want the position any more, but I learned one thing. Bachelors are not, generally speaking, good school board material.

Later, I taught where the school board consisted of one banker, one dry goods man, and one Sunday school superintendent. The result was that we were advised by an older head to keep our money in a certain bank, buy clothing at a certain store, and attend a certain Sunday school, unless our convictions forbade.

A few years later, I was connected with another school. There we had as our school board, one Jew, one non-resident, and one undertaker. I said, "Thank my lucky stars! The Jew will not expect me, a Gentile, to attend his church, the non-resident will not intrude, and the undertaker will not expect me to patronize his business."

If you are in need of a new board member, look over your material carefully. Check out the bachelors on general principle; take a married man who has no children in school to tattle-tale trouble, and take one whose business is such that the teacher will scarcely be expected to patronize him. I heartily recommend an undertaker, though if that is impracticable, a surgeon will make a good substitute, and a dentist will rank third. If you think a woman member advisable, choose a good knitter. Old maids make better board members than married women. They have better judgment as is shown by their judgment of men.

## INDIRECT BENEFITS OF WEEKLY PAPER PUBLICITY

Besides the widely recognized direct benefit that the town merchant receives through judicious advertising in the community weekly newspaper, says the Walkerton (Ontario) Telescope, there are indirect advantages which are not generally recognized.

For instance, many manufacturers are assisting their local dealers to market their product locally through nationally-placed advertising in the local newspapers with dealers' names attached. In placing this advertising, the national advertisers are looking to the local retailer to do his part in aggressive publicity and are placing it in local newspapers that appeal to them through their carrying already a good volume of live local advertising. It is newspapers of this character that are getting the bulk of the national advertising that is helping the local retailer to sell his product.

Another benefit of live local advertising has to do with the mail order situation. Mail order houses at the present time find that their catalogues run into big money. They have to plan carefully where they place them in order to get the best results. In studying a district, there are two things they consider chiefly. One is the buying power of the community and the other consideration is the way in which the district is being served by its home merchants. This can be ascertained most easily through the appearance of the local newspapers. If the merchants show indifference and lack of enterprise in their advertising, the mail order people see an opportunity for gaining a larger foothold by an aggressive flooding of catalogues and mail order advertising. This statement of the situation is not mere theory, but can be verified by addresses on the subject which have been made by specialists in mail order advertising. The mail order system of advertising is expensive and they have to watch their step. The quickest and least expensive means of reaching the local field would be through the local newspapers. The big city houses realize that and would be in the country newspapers in a minute if they could get there, but time and again they have been turned down by rural publishers who in loyalty to their own community have refused tempting contracts. The live local dealer is just as quick as the mail order advertiser to recognize the value of his local medium and is making the best of his opportunity in that direction.

## MODERATION LEAGUE REVIEWS HOTEL SITUATION

In an endeavor to obtain the views of the travelling public on the workings of the new Liquor Act and in particular the effect of Government Control on the standard of service and accommodation after one year's operation, letters were addressed to a number of prominent travellers working out of the four cities.

Replies generally indicate that the preponderant opinion is that a very general and marked improvement has been made in hotel accommodation throughout the province.

The elimination of a great number of Chinese owners within the year impresses as a favorable improvement.

However, while viewed as a whole, the comment is most favorable to the Act itself and the hotels generally; there are certain features that must be taken as constructive criticism and should be acted upon by country licensees as quickly as their finances will permit, if these hotel keepers are to be free from the accusations that they have not passed on a measure of the benefits conferred upon them by the Act, to their customers.

The suggested improvements can be summarized briefly as follows: Dining rooms should be operated by the licensee at country points with efficient service and wholesome food prepared.

Comfortable inside toilets, well ventilated and clean, should be a part of every licensed premises.

Better beds and furnishings are required in many points.

The rates for bedrooms have not been lowered and are too high for the class of accommodation given, there being no excuse for high rates.

While it is believed that licensees generally will, as business permits, make continued improvements to their buildings and service, it is felt that the Liquor Control Board should through a general policy of regular inspection and demand, see to it that the improvements suggested are made and maintained where needed, as quickly as the respective licensees are able to undertake them.

The maintenance of a definite high standard for rooms generally and clean, efficient dining room service in country points in particular, are results that the public have a reasonable right to expect from those who are benefitting as licensees under the Act.

## POWELL—ARMSTRONG

A very pretty wedding took place on Wednesday, August 5th, at 4 p.m., in St. John's church, when Miss Myrtle Edna, only daughter of Mr. and Mrs. Isaiah Armstrong, was united in the holy bonds of matrimony to Mr. Roscoe George Powell, B.A., son of Mr. and Mrs. G. R. Powell, of Coleman, the Rev. J. H. Gardin, A.C., officiating.

The church was beautifully decorated with flowers of the season and tulle, and the pews of the guests were designated by knots of tulle and fern. The bride party entered the church to the strains of Lohengrin's Bridal Chorus, the bride on the arm of her brother, Mr. R. R. Armstrong, of Calgary, who owing to the unavoidable absence of their father, gave the bride away.

The bride was very demurely attired, her dress of ivory crepe de chene and beaded satin having the court train from the shoulders lined with shell pink georgette. Her bridal veil of embroidered silk net was held in place by a coronet of orange blossoms, and she carried an arm bouquet of Ophelia roses and sweet peas, and also wore the groom's gift, a handsome string of pearls with diamond clasp.

The bridesmaid, Miss Cecile Marquis, was also charming, wearing mauve hand-painted chiffon georgette, with thistle crepe de chene Glorie Swanson poke hat, and carrying a colonial bouquet of roses and heliotrope.

Mrs. Armstrong, the bride's mother, wore pussy willow grey Canton crepe with corsage of red roses.

Mrs. Powell, the groom's mother, wore brown crepe satin with corsage of red roses.

The bridegroom was supported by his friend, Mr. Harvey Menzies, of Calgary, and Mr. W. Cable was usher. During the signing of the register the bride's cousin, Miss Laurie Halbert, of Regina, sang "Until," and the bridal party left the church to the strains of Mendelssohn's Wedding March, played by Mrs. T. J. Cumberband.

Following the ceremony a reception was held at the home of the bride's mother, the rooms of which were tastefully decorated with rose and sweet peas. The table was centred with the four-tier bride's cake and prettily decorated with roses and tulle. Girl friends of the bride assisted in serving.

Among the guests from out of town were: Mr. and Mrs. G. R. Powell, Coleman; Mrs. R. Carson, Winnipeg; Mrs. Fox and Miss Carmila Ingraham, Drumheller; Mr. and Mrs. McBurney, Coleman; Mr. Arthur Kelly, Blairmore; Mr. and Mrs. Rippon, Mr. and Mrs. C. Oulmette, Mr. and Mrs. A. Morrison, Mr. and Mrs. W. W. Cook, Mr. Barnes, Coleman; Mr. and Mrs. Lance Morgan, Blairmore.

The groom's gift to the bridesmaid was a white gold bar pin set with a diamond, to the best man a wrist watch, bar pins each to Mrs. Cumber-

band and Miss Halleran, and gold cuff links to Mr. Cable. The bride's gift to the groom was an emblem (Masonic) ring.

The bride's going away suit was of brown point twill with pleasant over blouse, and Gloria Swanson poke hat to match. Early in the evening Mr. and Mrs. Powell left by motor for points west. They will be at home to their friends after September 1st at their home in Coleman, where Mr. Powell has again accepted the proprietorship of the high school.

The bride is one of Pincher Creek's most popular and highly esteemed young ladies and with showers of rice and confetti the best wishes by a bevy of friends was conveyed.

The wedding gifts were unusually large in number and of exquisite taste, including two cabinets of silver, cut glass, china, linens, cheques, etc.—Pincher Creek Echo.

## COWLEY YOUNG LADY MARRIED AT CALGARY

The home of Mrs. R. W. McClung, 1501 Seventh Street West, was the scene of a very pretty wedding yesterday afternoon when Miss Rita Coates, of this city and daughter of Mr. and Mrs. Richard Coates, of Cowley, became the bride of Earl Welsh of Lethbridge, Rev. W. A. Lewis, of Victoria United Church, officiating.

Miss Coates has been for some time a member of the staff of the Manufacturers' Life Insurance company in Calgary. All of her co-workers were guests at the wedding, numbering about twenty, making the affair very jolly and informal.

The bride, who came down the broad stairs just as the chimes were striking three, on the arm of R. W. McClung, who gave her away, was very charming and picturesque in a lacy gown and cloth of dark shade ensemble suit with a picture trim with satin flowers to match. She carried a large bouquet of sweet peas in matching colors, tie with white tulle. The bridesmaid, Miss Margaret Robertson, wore a lacy blue and white flowered gown and carried Ophelia roses with streamers of white satin ribbon. The groom was supported by his brother-in-law, J. W. Harrison, of Drumheller.

Miss Eleanor Thompson played the wedding march. The bridal party stood in front of the fire place in the long drawing room and just as the ceremony was about to be performed the golden afternoon sun broke through the clouds and streamers through the windows upon the bride and groom, giving a very pleasing effect.

The house was decorated with garden flowers. The bride's table, set for four, was in the sun room, centred with a low gold bowl of orange nasturtiums. The dining room where the buffet supper was served was decorated with mauve sweet peas and babies' breath. Miss Alice Pettman poured coffee, while Mrs. W. A. Lewis and Miss Lillian Johnson, of Edmonton, cut the loaves. They were assisted

## Goodbye or Au Revoir?

The departure of Field Marshal Earl Haig of Bismarck from Montreal on the Anchor Donaldson Steamship, Friday July 31, was celebrated with full military honors. The ship and harbour were decorated with flags and crowds thronged the quayside to obtain a last glimpse of the great soldier who was Canada's guest. He may return in an official capacity.

by Mark McClung.

During the signing of the register, F. B. Murray sang in a very acceptable manner. The bride's mother, Mrs. Richard Coates, wore a very pretty ensemble of black and green and taupe flowered canton. The hostess, Mrs. R. W. McClung, wore an interesting combination of black and white canton.

Mr. and Mrs. Welsh left on the 5 o'clock train for the coast, where they will make a visit at the home of Mr. Welsh's parents in Nanaimo, B.C. Upon their return they will take up residence in the Dominion block, Lethbridge.

The guests included: Mrs. Duffield, of Spring Ridge, sister of the bride; Miss Dixie Fair, Miss Dora Powell, Miss Eleanor Thompson, Lorne E. Glover, P. E. Pike, F. B. Murray, E. Morely Barlow and John M. Bannerman—Calgary Alberta.

There are so many laws to observe nowadays that a person is really not existing unless they break one or more occasionally.

## PROVINCE WILL GIVE INSULIN WHERE NEEDED

The editor of the Hanna Herald, Mr. H. G. McRae, is to be congratulated in the success of the appeal he has made to the government to have supplies of insulin given to patients within the province who cannot bear the heavy cost of purchasing their supplies.

Insulin is the only sure remedy for the dread disease of diabetes, but as insulin has to be taken continuously throughout the life of the patient and the cost is high, a number have been forced to do without it, and relapse thereby.

Mr. McRae took the matter up with Hon. Geo. Hoadley, and the government has agreed to provide insulin in cases where the patient cannot afford the cost of the treatment himself or herself, each case to be treated on its merits. This action does credit to the government, and to Hon. Geo. Hoadley, who has always taken a great and beneficial interest in the health conditions of the province.

It might be mentioned that Mr. McRae is himself a testimonial to the beneficial results of insulin, for he put up a long and plucky fight against diabetes, and was not afforded relief until he adopted the insulin treatment, and his association while in hospital with others suffering from diabetes has convinced him of the necessity of the action which has been successfully advocated to the government.

In this connection the Western News remarks:

"Announcement is made by Hon. George Hoadley, minister of health, that free insulin will be issued by the department to patients in Alberta who are not financially able to secure it otherwise. In cases where free issue is made, necessary investigation will be made into the medical and financial sides of each case, instances where treatment was denied, but where patients could not meet the cost, have been brought to Mr. Hoadley's notice by the editor of the Hanna Herald."

We understand that the appeal of a certain local widow against the assessment by the school district of her lot in trade was refused by the board. This woman has a family of children to maintain, and has been widowed several years. It is gross injustice to place a burden of taxation upon her already burdened shoulders. Many an honest taxpayer or citizen would gladly step in and pay the tax for her rather than see the board get away with this.

## Spade Work That Gets the Trade

To get steady sales in satisfactory volume, you must build up confidence in your store and its service.

Advertising in "The Enterprise" will lay the foundation of such confidence. Advertising does the spade work that leads to bigger sales. It will tell folks about your store, its service. It will tell them about the goods you have to offer.

Let your advertising in "The Enterprise" be a standing invitation to the folks around here. As a rule,

The following by Albert M. Freeman in a house organ called the Imprint is too good not to quote in full: I know a man

Who thinks Printers are crazy  
And asks them to prove They  
Are Crazy  
Whenever he needs Any Printing  
He writes to  
Half a dozen Printers  
And Asks them to Quote.  
The other day he had a Job  
And so as usual  
He wrote for bids.  
The Lowest Bid was  
One Dollar and Sixty-five Cents  
And the Highest Bid was  
One Dollar and Ninety Cents.  
He spent Twelve Cents for postage  
in getting His Bids and  
He spent Three Cents  
For his Envelopes.  
And he spent Four Cents  
For his Writing Paper  
And he paid  
Eighteen Dollars  
A week to the  
Clerk who wrote the Letters  
And licked the Stamps.  
And so  
He sent the Job  
To the Lowest Bidder  
Who bid One Sixty-five.  
But it cost him Two-Forty-two.

Baby carriages, already equipped with "silents," are shortly to have to carry headlights.

Many school districts throughout British Columbia are experiencing difficulty in securing Teachers.

Pincher Creek and Cowley Oddfellows and Rebekahs will hold a joint picnic at the South Fork canyon on Wednesday next, August 19th.

### BLAIRMORE'S "FIRING SQUAD" AGAIN IN ACTION

A special meeting of the Blairmore Board of School Trustees was held on Friday night last, summoned for the express purpose of again "firing" the teaching staff.

There were present Chairman Dutil and Messrs. Hamilton and Beebe. Mr. Chappell and Mr. Wheatley were absent, the former in camp at Waterton Lakes, the latter on business in Edmonton.

According to the notice issued by the secretary, the members of the staff were again invited to meet with the Board to hear reasons for dismissal—this time, of course, not necessarily individually.

Correspondence that in the past six weeks has taken place between the Board and Teachers and between the Board and the Department of Education was read over by Chairman Dutil, supported to embody sufficient reasons, coupled with some other petty nonsense suggested by a member of the Board, for firing the teaching staff. These letters referred to meetings called, one for June 2nd, at which a letter to the teachers was drafted and sent, and another on June 4th to effect that they would not confer with the Board individually, but through an Alliance representative.

On June 10th the secretary was instructed to again write the teachers, stating the Board's regret at the attitude taken by the staff and requesting a statement before June 30th, and that the Board would be pleased to have the teachers present at a meeting to be held at the school-house on June 16th to hear the Board's reasons for proposed change in salaries.

On the 16th June, all teachers were present, together with Mr. Hoyle, of Coleman; Mr. Asselstine, of Bellevue; Mr. Conway and Mr. Barnett, the general secretary of the provincial Alliance. At this meeting the teachers were asked to confer individually with the Board, to which they declined and asked to be represented by an Alliance executive member. The Board declined to give a hearing to Mr. Barnett and the teachers left the meeting, whereupon the meeting adjourned.

On June 27th, a letter was sent to all teachers on the staff that agreements would terminate in 30 days.

Commissioner Dinning, of the Alberta Liquor Control Board, was in the Pass on Monday.

For the first time in the history of the West, Canadian crude oil has been moved in quantity from Alberta to the Pacific coast for refinement and sale.

Joe Lombardi, of Kimberley, who has lately been guest of the B.C. department of justice, is renewing old acquaintances in Blairmore and Coleman this week.

The Bassano mill rate for this year is 63, forty-seven for municipal purposes and sixteen for school purposes. There is no talk of cutting salaries of civic employees or teachers, and property holders, who are the rate-payers, are not kicking.

Nova Scotia's Liquor Control Board has been abolished in the interests of financial retrenchment being undertaken by the Rhodes government. The officers received salaries of \$4000 for the chairman and \$2000 each for the commissioners.

Twenty thousand kiddies took part in a day-long demonstration staged at Vancouver yesterday by the Elks, when twenty thousand parcels of cheer were handed out freely.

Mr. and Mrs. D. M. J. Conway returned on Friday last from Edmonton, via Lethbridge. They motored through with Mr. K. F. Stewart, who returned to Lethbridge on Monday.

Mr. and Mrs. T. J. Moore, formerly of Frank, but now residing in Calgary, were visitors last week with Mr. and Mrs. G. H. Dionne at Pincher Creek. Mr. Moore visited Blairmore, Fernie and Cranbrook before returning home with his family.

ance representative appear at this meeting, whereupon Mr. Conway retired.

Mr. Hamilton stated that "The Board had no authority to deal with the Alliance, if there was such a thing. We do not know what the Alliance is or who they are. We have no right to recognise the Alliance, etc."

The following resolution was next unheeded:

Moved by Mr. Hamilton—  
"WHEREAS the Board of Blairmore School District No. 628 had for the teaching year 1924-25 agreements dated as hereinafter mentioned, and with the Teachers hereinafter named, namely:

"Donald M. J. Conway, by agreement dated August 2nd, 1924;

"H. P. Thorson, by agreement dated July 28th, 1924;

"Edna May Fulton, Vivian J. Keith, Blanche E. Douglas, Cecile Marquis, Mary E. Rae, Jennie Galloway, by agreements dated August 26th, 1924;

"W. Fern Palmer, by agreement dated July 26th, 1924;

"Winogone Williams, Frances Gibbeau, Janet Nicol, by agreements dated August 26th, 1924;

J. H. Bond, by agreement dated December 11th, 1924;

"AND WHEREAS notice has been given to each of the said Teachers pursuant to the provisions of the third paragraph of Clause 6 as set out in each of the said Agreements;

"AND WHEREAS this Board at a special meeting thereof held on the 7th day of August, 1925, gave such of the said Teachers as were then and there present its reasons for proposing to terminate the said several Agreements now outstanding;

"IT IS THEREFORE RESOLVED that the thirty (30) days notice in writing provided for in the second paragraph of Clause 6 of the said Agreements for the termination thereof be given to each of the said Teachers, and that the Secretary be instructed to issue and serve such notices forthwith."

The motion carried, Hamilton and Beebe voting in favor of it.

In the eyes of our so-called School Board, the entire staff of Blairmore teachers, some of whom have served the district faithfully and well for periods of from four to fourteen years, and at times at no small amount of sacrifice, stands "fired."

While the ratepayers have not as yet manifested any great amount of interest in what is going on, they are shortly to realize that the aggregation at present administering their educational affairs will prove to be an expensive one for District 628. Petty personal differences are permitted to enter too largely into public matters and are largely responsible for the attitude of the Board, and it is not altogether with a view to economy that an effort is being made to replace the old staff. Again we epitomize one undeniable fact, that the attempt to cut salaries at this time was uncalled for, that the ratepayers did not demand it, and that in face of the fact that school boards in surrounding districts and throughout the whole of southern Alberta had decided to maintain their standard of salaries, the Blairmore Board can not justify their action.

We understand that the Board so far has secured a partial staff, and there is not the slightest reason to doubt but that with the presence of the old reliable and faithful "fired" teachers on the grounds while the newcomers are trying to fill their positions, that the results with the school in general will be anything but satisfactory.

There were still several vacancies on the new staff to be filled and the old batch of applications had to be again stirred up. Before considering these, the chairman suggested that the Board resolve into committee, meaning that the press representative should leave the room. The other members present, however, did not agree with Mr. Dutil and the Board proceeded to consider further applications.

It is really amusing to think that applications which are made probably early in the month of July should at this late date be considered by a school board, when it is reasonable to expect that those worth while are long ago placed.

Mrs. D. M. J. Conway, of Blairmore, entertained a number of guests, also teachers of the summer school, on Wednesday afternoon. Tea was served on Mrs. Sutherland's lawn on 83rd Avenue. Among the guests were Mrs. Wheatley, Mrs. Sutherland, Mrs. Davidson, Mrs. Garrioch; teachers: the Misses Fulton, Rae, Nicol, Douglas, Davis, Selon, Horton and Crowe; Mr. Conway, Mr. Garrioch, Mr. Stewart and Mr. Wade. Tea was poured by Mrs. Garrioch, Mrs. Davidson cut the ices, Miss Ora Davidson and Miss Deirdre Conway helped to serve.—Edmonton Paper.

A census of traffic recently taken on the Nanton section of the Calgary-Glacier Park highway gives some indication of the extent of automobile tourist travel. In three hours on July 20th, there passed a certain point sixty-one cars, thirty-three bearing Alberta license plates and the balance showing license plates from various States of the union and one from Hawaii. A census taken on Saturday, July 5th, the day previous to the opening of the Calgary Stampede, in one hour showed two hundred automobiles had passed through the village of Cayley, going north.

The Ontario department of education has insisted that the regulations of the adolescent school act be enforced, meaning that working children up to sixteen years of age have to attend school at least four hundred hours in the year.

### Here and There

According to the official records one hundred and thirty whales have been caught by the Victoria, B.C. whaling fleet so far this season. The sperm whale is the most plentiful this year.

It has been estimated that over one hundred and fifty thousand people attended the Calgary Stampede this year. A historical pageant more than five miles long was the opening feature of the Jubilee.

With an estimated attendance of five thousand each, twenty conventions have been booked to take place in Montreal for August, September and October, according to figures from the Tourist and Convention Bureau of that city.

It is expected that when Hon. Honore Mercier, Minister of Lands and Forests, returns to Canada, a thorough organization of the aviation branch of the Quebec Lands and Forests Department will take place. It is reported that the Province is to purchase several motor hydroplanes, to be used for forestry research work, as well as for combating forest fires and other work.

On the occasion of the departure from England of a party of one hundred school-teachers on board the "Empress of Scotland" to visit Canada and study educational methods here, His Majesty the King sent the following message to the International Education League: "His Majesty congratulates the League upon the happy conception of the undertaking which will give opportunities to study the educational system in Canada and to gain an insight into her history, development and general resources."

That 60,000 harvesters would be required to handle this year's crop, of which the East would be expected to supply 50,000, was the estimate arrived at last week at a conference of various governments held in the Canadian Pacific offices at Winnipeg. In the meantime the Canadian Pacific Railway has taken all necessary steps to transport the army of harvesters. Their colonist cars and special equipment has been overhauled and the company is now fully prepared for its annual rush of harvesters.

A similar excursion to the above left Toronto, July 26th, for the benefit of English speaking school-teachers. This tour, also lasting three weeks and covering all principal points of the Dominion was conducted by Dean Sinclair Laird of MacDonald College under the auspices of the Teachers' Federation of Canada.

## WORLD HAPPENINGS BRIEFLY TOLD

The charter of citizenship for North Bay was officially handed to Mayor J. O. McDonald, Aug. 2, by Hon. Charles McCrea, Ontario's minister of mines.

Efforts will be made this summer to transplant Swiss mountain roses to the Canadian Rockies. The roses thrive only at elevations above 3,000 feet.

Mrs. Amelia Burdett, Manitoba's oldest inhabitant, celebrated her 103rd birthday at Portage la Prairie, Aug. 2nd.

The Industrial Workers of the World recently held, at Sydney, Australia, their first meeting since the organization was declared illegal in 1917.

The cotton crop grown within the empire during the past year is estimated at 261,900 bales, valued at \$2,373,300.

The first clean-up since the discovery of the Dease Lake gold field was made by William Gray on No. 9 claim. Four days' work brought him in \$200 in coarse gold.

Flora Macdonald, the Highland heroine of "Bonnie Prince Charlie," is to have her memory perpetuated by the ruins of her home scheduled under the Ancient Monuments Act.

At the age of 78, Sir William Pryke, ex-senior alderman of the City of London, has been chosen for election as Lord Mayor of London next September.

One person in every ten in Britain is now a member of a co-operative society, and these British co-operative societies did business last year to the value of £175,000,000.

The House of Commons adopted the government's naval estimates, including the programme for the construction of new warships. The bill was passed by a vote of 305 to 157, without debate.

Wheat production in the world's 17 principal grain producing countries, is estimated by the department of agriculture, Washington, at 2,111,000,000 bushels, compared with 2,045,000,000 bushels in the same countries last year.

The call for volunteers to form an American escadrille to go to Morocco to assist the Sultan against the Rifis, has enlisted Sergt. Commander W. J. Bussan, formerly of Ottawa, Canada, who earned fame by winning seven decorations as pilot and engineer.

### Planning Great Air Liner

British Firm Will Build First Steel Airship

A great engineering feat will be started by a well-known British firm in the early summer of next year, the building of the world's largest airship, the first steel airship. It will be about 720 feet long, nearly twice the height of St. Paul's.

The airship will be able to carry a load of 150 tons, and seven engines, with a horsepower totaling 4,500, will drive the monster seventy miles an hour, at a height of 5,000 feet.

The shed at Cardington, in which the H-101 will be built, is to be enlarged to a length of 312 feet, and will then be the largest building in the British empire.

It is estimated that the airship will be finished by the end of 1926, and will make her first trip to India in 1927.

### To Ease Rubber Situation

New Regulations Allow Export at a Minimum Duty

The British colonial office has announced it has decided to permit from August 1 export of 70 per cent of the rubber production in Ceylon and the Straits Settlements at a minimum duty, this being a 10 per cent increase over the export allowed during the previous three months.

The new regulation includes the Federated Malay States. The British Government also has approved certain concessions in the assessment of the standard of production in the Federated Malay States which it is believed will further ease the situation.

### World's Fattest Man

Daniel Lambert, who was born at Leicester, England, in 1776, and died at Stamford in 1902, was the fattest man who ever lived. It has been proven. His weight was 728 pounds. He was nine feet, four inches around the waist and the calf of his leg was 37 inches in circumference. A crowd of eleven men once stood within a buttoned waistcoat that had belonged to Lambert.

Building Around Old Castle  
An interesting piece of building work is going on in Nebraska, where a new capital building is under construction. The walls of the new building, much larger than the old one, are being built around the old building while work continues undisturbed.

W. N. U. 1569

## Finishes Trip Around World

Dublin Man Accomplished Journey in Two Years in Small Ketch

Exactly two years since he sailed from Dublin in his 30-ton ketch, the *Saolrae*, Mr. Conor O'Brien arrived back in harbor.

In his tiny vessel he has encircled the world via Madagascari, Persia, Australia and the Falklands.

He was met by yachts representing the Royal St. George, the Royal Alfred and the Edward Yacht Clubs, and 150 vessels escorted him into harbor in a triumphal procession. About 50,000 people lined the pier and streets.

Mr. O'Brien explained that he had to wear glasses owing to the strain on his eyes, otherwise his health was good.

"The responsibility of being in charge of the boat," he said, "was very heavy, and in the latter stages of the voyage I became rather tired, and this was made worse by my eyes."

Except for the trouble in getting over the voyage he was two months in Melbourne and one month in Durban.

The *Saolrae* herself had given him not the slightest trouble. She had made good time crossing the Pacific at an average of five and a quarter knots.

Only on one occasion did he encounter very rough weather. That was in January last when he ran into big seas off Cape Lavin, Southwest Australia.

He said he wished to convey government officials of the efficacy of his invention as a death dealing agency. He plans to make the test off the coast of California some time in September with an old battleship or battleship.

A few of the possibilities attributed to his invention by Dr. Scott are: Destruction of all life on land, sea or in the air, within a radius of 20 miles, discharging of all radio apparatus within a similar radius, destruction of the super-structure of battleships at a distance of ten miles or more; the bringing down of aeroplanes from any height possible for a plane to achieve; destruction or disabling of land fortifications at long distances.

"In tests already conducted," said Mr. Scott, "bombs were burst in two inch steel plates at a distance of one mile; dead trees have been fired at the same distance and animal life has been snuffed out at distances ranging from two to seven miles. Dummy planes also have been destroyed in air tests."

**Will Be Marvellous Building**  
Muscolini Approves Skyscraper For Italy Eighty-five Stories High

If the emperors of ancient Rome could come to life, again they might well rub their eyes at the new plans which Signor Muscolini has approved for the beautifying of their city.

And what would astound them most of all would be to learn about the colossal skyscraper which Signor Mario Palanti, an architect born in Milan, but known all over Italy and South America for his wonderful artistic and engineering genius, will set up outside the town if he can get sufficient support.

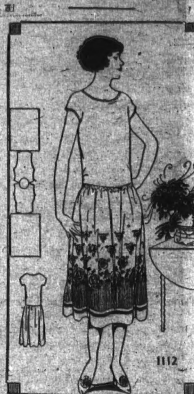

It will be no less than eighty-five stories high and the highest skyscraper in the world is only 48½—will cost 400 million lire, about four million pounds, to build. And when it is built it will contain, 5,000 offices, a huge arena, a theatre, a concert hall, picture galleries and promenades.

The *Mole Littoria*, as the new landmark will be called, is to be set up in the form of a huge telescope, standing on end at full extension. Its base will be twenty stories high, and the topmost point of its highest tower will reach 1,135 feet, over three times the height of St. Peter's, and nearly three times as high as St. Paul's Cathedral.

Built of concrete, with steel girders, it will rise like the clean Italian sky like the graceful palace of a dream, dwarfing all other buildings for miles around, and even the Seven Hills themselves.

"Jack's a good fellow, but rather laconic, don't you think?"  
"Yeah, and besides he talks too much."

A clock that speaks the time every 15 minutes has been invented.

For Summer Dances and Dinners  
Fashions and flowers express a quaint simplicity in the little evening frock pictured here. The light bodice and full skirt express a type which is very popular with the younger set, and is especially pretty when the crispness of the fabric is allowed to influence the skirt to stand away at the hips.

## Shook Hands Under Thames

Workmen Have Completed Novel Engineering Feat in England

A novel engineering feat reached its climax a short time ago in England when workmen who since December have been boring under the Thames at a depth of 80 ft. between Barking Creek and Woolwich Arsenal, completed the excavation of a tunnel 8,000 ft. long—about 3½ times the width of the river at London Bridge, London.

For the first time in engineering history, the boring through the chalk has been carried out in compressed air at a pressure of 40 lb. to the square inch.

Some of the men who are employed in this class of work are paid at the rate of \$6,000 a year.

Forty feet of solid chalk stand above the tunnel.

Sixty-four men have been engaged on the job, 32 working from the Woolwich side and 32 from the Essex side. When the last barrier of chalk was pierced the gauge shook hands heartily.

By careful mathematical calculation the two parts of the tunnel met exactly in line and level, and even the bolt-holes of the linings were opposite each other.

**Will Abandon Island**  
Land Off North Wales Coast Is Too Isolated

Bardey Island situated off the coast of North Wales is about to be abandoned by its inhabitants. The island is about two miles long and one wide and has its own king. Thirty years ago Bardey had a population of one hundred people, but they have dwindled down to forty-five, who have been living on nine small holdings.

King Love Pritchard, the island's monarch, was crowned in 1911, and is now eighty-three years of age. His predecessor, King John H., abdicated, and died in a Welsh workhouse. "The youngest inhabitant is a year-old baby. No rates or taxes are paid by the islanders. The decision to abandon the island was made at a conference of the islanders, the main reason being the difficulty of transport. Although the distance between the mainland and the island is only two miles, currents and tides make the passage one of five miles. The islanders have often been for six weeks without contact with the mainland."

## BAREE, SON OF KAZAN

James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page &amp; Co.

"BAREE, SON OF KAZAN," a Vitaphone Picture, With Wolf, the War Dog, in an Adaptation of This Story

Synopsis  
Baree, son of Kazan and Gray Wolf, reached the climax of his first love yesterday, he sunk alone in a diamond-encased sort of way. His head and ears were no longer alert, and his curiosity was gone. He was not only stomach-hungry, mother-hunger rose above his physical yearning for something to eat. He wanted his mother as he had never wanted her before in his life. He wanted to engulf his shivering little body close up to her and feel the warm caressing of her tongue and throat to the bounding white of her robes. And he wanted Kazan, and the old windfall, and that big blue spot that was to the sky right over it. While he followed, again along the edge of the creek, he whimpered for as a child might grove.

CHAPTER III.—Continued.  
When he went on, continuing in the direction he had been following yesterday, he sunk alone in a diamond-encased sort of way. His head and ears were no longer alert, and his curiosity was gone. He was not only stomach-hungry, mother-hunger rose above his physical yearning for something to eat. He wanted his mother as he had never wanted her before in his life. He wanted to engulf his shivering little body close up to her and feel the warm caressing of her tongue and throat to the bounding white of her robes. And he wanted Kazan, and the old windfall, and that big blue spot that was to the sky right over it. While he followed, again along the edge of the creek, he whimpered for as a child might grove.

The forest grew more open after a time, and this cheered him up a little. Also the warmth of the sun was taking the ache out of his body. He grew bolder and hungrier. He had depended entirely on Kazan and Gray Wolf for food. His parents had, in some ways, made a great baby of him. Gray Wolf's blindness accounted for this, for since his birth she had not taken up her hunting with Kazan,

"Across this sand, half an hour later, came a huge black bear."

and it was quite natural that Baree should stick close to her, though more than once he had been filled with a great yearning to follow his father. Nature was hard at work trying to overcome his handicap now. It was struggling to impress on Baree that the time had now come when he must seek his own food.

With the thinging out of the forest the creek grew more shallow. It ran again over bars of sand and stones, and Baree began to nose along the edge of these. For a long time he had no success. The few crayfish that he saw were exceedingly lively and skittish, and all the clamshells were shut so tight that even Kazan's powerful jaws would have had difficulty in smashing them. It was almost noon when he caught his first crayfish, about as big as a man's forefinger. He devoured it ravenously. The taste of food gave him fresh courage. He sought two more crayfish during the afternoon.

With the approach of night Baree's ears and great loneliness returned. Before the day had quite gone he found himself a shelter under a big rock, where there was a warm, soft bed of sand. Since his fight with Papayachewah, he had travelled a long distance, and the rock under which he made his bed this night was at least eight or nine miles from the windfall. It was in the open of the creek bottom, with the dark forest of spruce and cedars close on either side; and when the moon rose and the stars appeared the sky, Baree could look out and see the water of the stream shimmering in a glow almost as bright as day. Directly in front of him, running to the water's edge, was a broad carpet of

white sand. Across this sand, half an hour later, came a huge black bear. "Until Baree had seen the others at play in the creek, his conceptions of the forests had not gone beyond his own kind, and such creatures as owls and rabbits and small feathered things. The others had not frightened him, because he still measured things by size, and Nekke was not half as big as Kazan." But the bear was monster-bottle, which Kazan would have stood as a mere plume. He was big. If nature was taking this way of introducing Baree to the fact that there were more, important creatures in the forests than dogs and wolves, and owls and crayfish, he was driving the point home with a little more than necessary emphasis. For Wakayoo, the bear, weighed six hundred pounds if he weighed an ounce. He was fat and sleek from a month's feasting on fish. His shiny coat was like black velvet in the moonlight, and he walked with a curious rolling motion with his head hung low. The bear growled when he stopped beside him in the carpet of sand not more than feet from the rock under which Baree was sheltering as if he had the eagle's sense.

It was quite evident that Wakayoo had caught scent of him in the sand. Baree could hear him sniff—could hear his breathing—could the starlight flashing in his reddish-brown eyes as he swung suspiciously toward the big boulder. If Baree could have known then that he had a powerful little seal—was making that monster actually nervous and uneasy, he would have given a yelp of joy. For Wakayoo, in spite of his size, was somewhat

to slide over the tops of the hills, and now and then one of them fell with a startling crash. Baree could go no farther. An hour before dusk he lay down in the open, weak and starved. The sun disappeared behind the forest. The moon rolled up from the east. The sky glittered with stars—and all through the night Baree lay as if dead. When morning came, he dragged himself to the stream for a drink. With his last strength he went on. It was the wolf's urge, his compulsion, his struggle to the last for his life. The dog in him wanted to lie down and die. But the wolfspark in him burned stronger. In the end it won. Half a mile farther on he came again to the green timber.

(To be continued.)

## Made Unfortunate Start

After Two Mistakes Journalist Decided To Leave Town  
One of the difficulties that beset even the best-intentioned journalists is told by one of that profession who decided to establish a newspaper in a "one horse" town, and was informed that a certain gallant colonel must at all costs be propitiated. His first number, therefore, contained a long article full of praise of the colonel's achievements, but unfortunately the headline, which should have read "Our Beloved Hero," appeared as "Our Beloved Scoundrel," and an hour later, the colonel, who liked his glass, was round looking for the editor with a shotgun. An explanation was with difficulty effected, and an apology and correction promised. Unfortunately the compositor again slipped, and the apology explained that "Belle Scoundrel Hero" should have read "Belle Scoundrel Hero." When the enterprising journalist saw his paper, he wisely sought the railroad depot, and moved on.

## Discovery Of Sheffield Plate

Fusing Of Silver and Copper Was Done Accidentally  
It is said that Sheffield plate was accidentally discovered by Thomas Boswell, when he was repairing the handle of a pocket-knife composed partly of silver and partly of copper. And in making his repairs accidentally fused the two metals. He at once conceived the idea of uniting these two metals and using this as a substitute for making articles which hitherto had been made of sterling silver only. He went to have specialized in making silver articles such as buckles, buttons, snuff-boxes and patch-boxes, some of which were only half an inch in diameter. He did not appreciate how important his discovery was, and consequently did not reap the full results from his remarkable invention.

## New Sea Discovery

Scientists Find Spot Where Two Great Currents Meet  
In a recent scientific expedition on the sea there was discovered a gigantic tide-race where two great currents meet. The mass of foam caused by their violent collision extended for miles, and in this foam great numbers of whales and porpoises wallowed, attracted by the immense supply of food. There were also great quantities of wreckage, covered with organisms, and all of all kinds feeding on them. For the first time the scientists found the edge of the ocean, the only marine life seen in the world. Vast numbers of jelly fish colored the water purple for many square miles. The expedition caught more than 150 species of fish.

## Caution Was Required

Judge Needed Gilt-edged Proof When Giving Up Cash  
A former judge, who had become a cashier in a western bank, once declined to honor a check that a stranger had presented. "The check is all right," he said, "but the evidence you offer in identifying yourself as the person to whose order it is drawn is scarcely sufficient."  
"I have known you to hang a man on less evidence, judge," was the stranger's response.  
"Quite likely," replied the ex-judge, "but when we're giving up cold cash we have to be careful!"

## Most Valuable Stamp

A British Guinea postage stamp which was sold for a cent in 1859 is now valued at \$425,000. It is the only one of its denomination of that issue and is said to be the most valuable stamp in existence. The most valuable ever printed in the United States is one of a five-cent issue from the town of Bonanza, New Hampshire, in 1846, and its value is \$12,000.  
"Mind," How do you like your new laundry? "Hut! Very well indeed. I sent a dozen dollars last week, and everyone of the buttonholes came back."

Genuine  
BAYER  
ASPIRIN  
Say "Bayer"—Insist!

For Colds Headache  
Neuralgia Rheumatism  
Lumbago Pain  
Safe—Accept only a Bayer package

which contains proven directions  
Bayer's "Bayer" boxes of 10 tablets also bottles of 24 and 100—Druggists everywhere. See that the word "Bayer" is on the wrapper, and the Bayer cross on the wrapper of each tablet.

## Mystery Man Of Arabia

Colonel Lawrence Was Great Figure In World War  
The mystery man of Arabia, archaeologist, soldier and maker of kings, Colonel T. E. Lawrence, remained practically unknown until the end of the great war. Yet he was one of the greatest figures in the world struggle.

Members of the army medical board looked at the tall, five-foot-three, tow-headed youth, winked at one another, and told him to run home to his mother and wait for the next day's verdict.

Just four years after he had been turned down as physically unfit for the ranks, this young, Oxford graduate, small of stature, shy and scholarly as ever, entered Damascus at the head of his victorious army.  
In 1917 Lawrence and his associates, in co-operation with Faisal, Ali, Abdullah and Zaid, blew up 24 Turkish trains, tore up 15,000 rails and destroyed 47 bridges and culverts. During the 18 months that he led the Arabs they dynamited 73 trains and bridges.  
With his Arab army ever increasing and becoming more efficient, Lawrence, at the head of the Bedouin irregulars, eventually rode through the streets of Damascus.

In such small compass it is impossible to do justice to the exploits of Lawrence—the times he went distinguished into the Turkish lines, and meeting with the Bedouin Robin Hood (an ancient gentleman who had slain a lion, excluding Turks, in hand-to-hand combat in 17 years), of the wonderful battle he directed in the desert streets of the lost city of Petra, where the palaces, towers, and amphitheatres have for hundreds of years been occupied only by the lizards and the jackals.

Good News For Italian Prisoners  
An amnesty, a decree of far-reaching proportions, freeing all political offenders, except murderers, and releasing from the jails prisoners of all kinds, has been granted as an act of royal clemency, and as a contribution to national pacification, on the occasion of the completion of the quarter century, reign of King Victor Emmanuel. It is estimated that between ten and 12,000 persons will be affected.

## Seeping Him Up

Sam (yeller monkey in cage): "It's apparent to me."  
Wilms: "Oh, really. I didn't know that the relationship was so close."

## ONTARIO WOMAN REGAINS HEALTH

Wants Other Women to Know About Lydia E. Pinkham's Vegetable Compound

Mount Forest, Ont.—"Before I took Lydia E. Pinkham's Vegetable Compound, I felt weak and miserable and had pains all through me. I was living in a little Creep at the time and I had a friend come in and told me her experience of using the Vegetable Compound and advised me to take a bottle. I finally did. I began to feel stronger and those pains left me. I am glad I found out about this medicine as I think there is none equal to it for women who have troubles of this kind. I cannot praise the Vegetable Compound too highly for the good it has done me. Whenever I know of a woman suffering I am glad to tell her of it."—Mrs. Wm. Riddip, R. F. 1, Mount Forest, Ontario.

Women through the Dominion are finding health in Lydia E. Pinkham's Vegetable Compound.  
No harmful drugs are used in its preparation—just roots and herbs—and it can be taken in safety even by a nursing mother. For sale by all druggists.

## Could Not Be Mistaken

Explorer Tells How Lindt Rejected Its Admirer  
In "Adventures in Exploration at the World's End," William Beebe, the explorer, says:

No sooner had I passed beyond the open sandy beach of Chatham Island, than Lindt, lizard began to dart along my path.  
I crept up to the first one I saw, anxious to get a photograph, and while looking into my camera almost trod upon it, so close was it. While waiting for it to turn sideways, a big male crawled between my feet and nodded frantically to a scarlet-throated female sunning herself on a bit of lava. He crept a little nearer, nodded again, and besought the lady lizard as high as possible upon all four legs, making them look like straight little sticks, arched her body, held herself up with all until she lost all semblance to a lizard, and, turning her head slowly, spat upon her admirer. He turned nonchalantly caught a fly, and sadly made his way elsewhere. Never have I seen such a sudden transformation or a more unmistakable indication of disposition.

## Last But Twelve Hours

Flowers of Night-Blooming Cereus Withers At Dawn  
Of the many beautiful flowers of the Hawaiian Islands, the night-blooming cereus stands out by itself. It comes of the cactus family and is without competition, as it is the owl of the flower kingdom. The life of the flower is about twelve hours. The buds begin to open as the shades of night gather, and by the time dawn settles the flower is fully open. It begins to close with the coming of the morning light, to close and wither, never to open again.

These flowers come in countless numbers and are eight inches in length and from six to eight inches across. The petals are snow-white, while the deep calyx is a rich yellow.  
June, July and August is the blooming season, but there is only one night when the buds come forth in all their glory. On that night the people of Honolulu turn out to pay homage to this queen of flowers.

It Bids Pain Begone.—When neuralgia, the nerves or lumbago grip the back, the time to test the virtues of Dr. Thomas' Electric Oil, will seldom be long. It will soothe the pain and produce a sensation of ease and rest. A trial of it will establish fact in its favor.

A Triumph  
"There's" said the scientist, as she laid down her pen: "I think that's a record! Twenty-four postcards and only nine beginning. Just a line to let you know!"

Recognized as a leading species for the destruction of worms, Mother Gray's Worm Expeller has proved a boon to suffering children everywhere. It seldom fails.

## A Homely Illustration

Toasting Bread Shows Main Principle Accounting For Heat at Equator  
Every time we toast a piece of bread we are illustrating the main principle which chiefly accounts for the earth being hotter at the equator than at the poles. If we hold the bread parallel with the fire, it gets the full heat, but if we tilt it slantwise, it takes longer to toast. The equator is the part of the earth's globe that gets the most direct rays from the sun, the poles the parts that get the most slanting rays. In the one case, we get a sun directly overhead at some part of the day; in the other, the sun at its very best only "steers" to a point low down on the horizon, and so gives off rays extremely on the slant. These slantwise rays, too, have to pass through much more atmosphere than the straight rays, and as our atmosphere acts as a sort of blanket, with its mist and fog, it follows that the heat of the slanting rays is still further reduced in power. Other considerations also have their bearing upon the question, but the straight versus slantwise rays are the main factor in the comparative heat of the equator over the poles.

## Work Worth While

The things which you most dislike to do may be worth more to you than a baker's dozen of pleasant tasks. Say, "What should I do?" instead of pining your fingers. Many dislikes are changed to likes, when the task is honestly faced and attempted.

## Which Did She Want

She: I noticed you hesitated when I asked you if I was the only girl you had ever loved.  
He: Yes, I couldn't tell from your expression whether you wanted me to say "No" or "Yes."

Pigs raised on the high lands of Tibet are covered with thick, rusty colored hair.

Good Salesmanship  
Jew Decided Arguing With Customer Was Bad Business

A story is told of a Jew who was selling a suit of clothes to a customer. "It looks pretty well, but I doubt if it's all wool," said the customer. "But do you like it?" replied the shopkeeper. "Yes, I like it, but I don't think it is wool." "Then, shall I wrap it up for you?" "Sure," replied the customer; "I'll take it. But why didn't you argue with me?" "Because," replied the merchant, holding out his hand for his money, "if I win the argument, I lose the sale; so what's the use?"

## SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets or in a few hours they may be beyond help. These Tablets will prevent a summer complaint if given occasionally to the well child, and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee of a physician's analysis that they are absolutely safe. The Tablets are sold by medicine dealers or by mail, at five a box from The Williams' Medicine Co., Brockville, Ont.

Best Orient Great Wheat Importer  
A prophecy that the Orient would become, in the near future, a really large importer of Canadian wheat, was made by Hon. Dr. J. H. King, Ottawa, minister of public works.

In predicting increased Orient trade in grain, Dr. King pointed out that imports of wheat from Canada for 1932-23 increased 400 per cent.

Minard's Liniment For Aches and Pains  
A German inventor has perfected a machine for measuring the height of acropoles. The apparatus throws the echo from the craft to the ground within one ten-thousandth of a second.

The brain is the most variable in size and quality of all the parts of the human body.

The Right Way to Boil Potatoes  
Put the potatoes in an SMP Enamelled Potato Pot. Cover with water. Add salt to taste. Boil until done. When finished, drain off all the boiling water through the strainer spout. No danger of steam scalding the hands because the handle securely locks the cover on. If your family uses potatoes, you require one of these.

**Items of Local and General Interest**

Judge J. M. McDonald has returned to Macleod from a two weeks' vacation trip to the Pacific coast.

Mr. Bisbee, manager of the Medicine Hat brewery, was a visitor to this district on Thursday last.

John Hall, the local vendor, returned Monday morning from his vacation, spent at Edmonton and Banff.

James Maxey, representing the wholesale paper house of Barber-Elis, Calgary, was in town on Friday last.

The Michel seniors play the Blaimore baseball team on the local diamond tomorrow evening. This should be a humdinger.

The Wilson Coal & Coke Co., Michel, have been awarded the contract to supply two thousand tons of coal for Calgary schools.

G. K. Sirett and family are spending a week in camp at The Gap, where they are having good luck with trout. Tony Serra is with them.

The Elks at Red Deer have donated \$2000 towards a new covered rink and the Rotary Club promises to come through with a similar amount.

We learn that the salary accepted by the new principal of the Bellevue school is not less than \$2000, and not \$1800 as stated in our last issue.

"Bob" Gray, who is organizing for a new Elk Lodge at Coleman, reports great progress and that he will be ready for institution about the first week of September.

Two large warehouses, filled with hay, and a carload of binder twine, the property of the Co-Operative Hay Growers, was destroyed by fire at Pincher Station on Sunday night.

A car driven by a Hindu and carrying three compatriots, turned over on a hill near Coleman last night, killing one of the number. Two others are in hospital suffering from injuries.

A man was arrested in Hamilton for staring at a woman. The truth is that a good many women these days are made up to be stared at and in this particular case four-fifths of the human form was unwrapped.

Mr. F. J. Matthews, general agent for Conklin & Garrett All-Canadian Shows, was in town last week end, arranging for the appearance of his shows here during the last week of this month.

Fatty Bartlett and Tiny Garrison walked to Race Horse Creek on Saturday afternoon, returning to town on Sunday. They report the trail over Gold Creek summit in good condition and fishing in Race Horse good.

Jack Morden, well known trapper, was in from Carbondale River on Monday. Jack brought in for exhibition purposes a trout taken by himself from the waters of Castle River, weighing slightly under ten pounds dressed.

Tony McKinley, who succeeds the late Mr. McCollery as provincial organizer for the Benevolent and Protective Order of Elks, is busy lining up a new lodge at Claresholm and hopes to set it on foot in a few weeks with a membership of well over a hundred.

The United church summer camp, held at Beaver Creek this year, was a bigger success than ever. The boys and girls report having a "whole of a time." Sunday last was visitors' day and quite a large number of the parents and friends from Blaimore paid the camp a visit and greatly enjoyed their stay. The camp broke up on Tuesday. Those in charge of the camp wish to thank all the friends who so kindly donated the use of their cars for transporting the boys and girls and to those who in any way contributed toward the success of the camp.

Mr. and Mrs. D. G. Mackenzie were visitors to Calgary last week.

J. B. Wilson and family are enjoying a brief holiday on the Pacific coast.

G. Sangster left Sunday morning on a brief visit to Vancouver and other coast points.

Miss Frances Gibeau returned Friday morning last from a vacation spent at Sylvan Lakes.

The Conklin & Garrett All-Canadian Shows will appear in Lethbridge and Drumheller.

Mr. Phillips, district superintendent for the Alberta Telephone, was in town on Monday from Lethbridge.

Mrs. Dr. O. Lillie and Mrs. Dr. R. K. Lillie returned Friday night last from a visit to the Creston district.

Mrs. W. A. Henderson left on Wednesday night for a three-month visit to Toronto and eastern points.

Mr. and Mrs. T. Duncan were down from Elko on Saturday on a visit to Mrs. W. Robinson at the residence of Mrs. Carter.

C. P. Hill, of Victoria, B.C., was a visitor to this district last week. Mr. Hill was the founder of the mining town of Hillcrest.

Gordon Stevens leaves tonight for a three-week holiday at Sylvan Lake. Mr. Boyce, of Pincher Creek, is replacing Mr. Stevens.

Mrs. William Robinson, of Elko, left here on Sunday night's train for England. She is being accompanied by Mrs. J. M. Carter as far as Montreal.

Out of the 1,200,000,000 pieces of mail matter handled by the Canadian postal department last year, some 2,000,000 went to the dead letter office because they were undeliverable.

The rank of Knight will be conferred at the regular meeting of Livingstone Lodge No. 22, Knights of Pythias, tomorrow night. A full attendance is requested.

The Blaimore School Board must expect to secure considerable inefficiency in a staff selected at this late season. And if it so happens the school children in general must suffer.

Earl M. Bush, of Portland, Oregon, who had been visiting for a week with his father here, W. M. Bush, of the Blaimore Vulcanizing & Battery Station, returned home yesterday.

Seven hundred and seventy new enterprises with an authorized capital of \$100,000 or over, were incorporated under the laws of the different States in June, 1925, representing a grand total of \$1,003,270,000.

One member of the Board at a recent meeting childishly remarked that the "teachers were enjoying too high a standard of living, more than he and his family could afford," even mentioning such luxuries as greens and fruits.

It begins to look as if it is as hard for some people to quit putting stamps on small checks as it was to get them to start using them. It is not necessary now to use stamps on checks for smaller amounts than five dollars, nor on receipts for smaller sums than ten dollars.

"If the women of the church wish to continue to raise money through the sales of home cooking and bazaar and by other methods that are competing with legitimate merchandisers, let the church take out a license to do business and also let it pay all the other taxes with which the legitimate merchant is faced," was the declaration of Mrs. James Henderson, of Brandon, when she addressed the first session of the reorganized Women's Missionary Society of the Continuing Presbyterian Church.

The Pincher Creek annual fair took place on Tuesday and Wednesday of this week and was attended by the usual amount of success.

We notice that in the account of the Powell-Armstrong wedding, practically everything was "charming" but Mr. Arthur Kelly.

Mr. J. H. Tabor, formerly of the Tabor Candy Company, of Medicine Hat, but now of Vancouver, was in town on Tuesday.

Dr. J. S. Hynes, Miss M. Hynes and Mr. C. J. Tompkins and Misses Kathleen and Helen Tompkins, left Sunday by motor over the Banff-Windermere trail.

The city of Vancouver has taken the stand that in view of the abnormally quiet times, no circus will be allowed to operate in that city on Labor Day.

The elections in New Brunswick on Monday gave the Conservatives a majority of twenty-six. The Liberals secured 11, Farmers 9, and Conservatives 37.

O. J. and Mrs. Sparrow and family, who have been visiting with their mother, Mrs. Madden, at the Windsor Hotel, Lundbreck, left for Vancouver on Tuesday morning by motor.

The Bellevue and District Horticultural Club will stage their eighth annual flower show, exhibition and sports on Labor Day, September 7th. The programme this year will be the biggest and best yet.

Mrs. J. Callan and son, after a two-day visit with friends in Bellevue and other Pass points, left Friday morning for Vancouver, where they will in future reside. Mrs. Callan recently disposed of her business at Cadomin, Alberta.

Visitors to Lee Lake nowadays find a service valuable being rendered by Mrs. J. L. Parker, who has on hand at all times refreshments, such as ice cream, home-made candy, soft drinks, etc., for sale. Also eggs, butter, milk, etc.

Dr. Kirk, well known Macleod medical man, dropped dead in his office of heart failure on Saturday night last, at the age of 53. Dr. Kirk was a prominent Mason and member of the United Church. He leaves a wife and four or five children. Interment took place at Macleod on Monday afternoon.

At the Elks' Kiddies Day at Fernie, over two thousand kiddies joined in a procession headed by the Elks and their Pipers' Band. Each carried a flag. Ten thousand free tickets were distributed and the kiddies consumed four thousand ice cream cones, four thousand cups of lemonella and two thousand bags of peanuts.
